

AILET

ALL INDIA LAW ENTRANCE TEST

SOLVED PAPER 2024

Duration: 120 Minutes

Maximum Marks: 150

INSTRUCTIONS TO CANDIDATES

1. No clarification on the Question Paper can be sought. Answer the questions as they are.
2. There will be 150 Multiple Choice Questions (MCQs) of one mark each to be answered in the OMR Response Sheet only. Total marks are 150. Answer ALL the Questions.
3. There will be Negative Marking for Multiple Choice Questions (MCQs). For every wrong answer 0.25 marks will be deducted.
4. Candidates have to indicate the most appropriate answer by darkening one of the four responses provided, with only BLACK/BLUE BALL POINT PEN in the OMR Response Sheet.

Example: For the question, "Where is the Taj Mahal located?"

(a) Kolkata

(b) Agra

(c) Bhopal

(d) Delhi

Right Method

(a) ☒ (c) ☐ (d) ☐

Wrong Methods

(a) ☒ (c) ☐ (d) ☐ (a) ☒ (c) ☐ (d) ☐ (a) ☒ (c) ☐ (d) ☐

5. Answering the question by any method other than the method mentioned above shall be considered wrong answer.
6. More than one response to a question shall be counted as wrong answer.
7. The candidate shall not write anything on the OMR Response Sheet other than the details required and in the spaces provided for.
8. After the examination is over, the candidate can carry the Question Booklet along with candidate's copy of the OMR Response Sheet. Candidate will hand over the original OMR Response Sheet to the invigilator.
9. The use of any unfair means by any candidate will result in the cancellation of his/her candidature.
10. Impersonation is an offence and the candidate, apart from disqualification, may have to face criminal prosecution.
11. Electronic gadgets like mobile phones, digital watch, pagers and calculators, etc. are strictly not permitted inside the Test Centre/Hall.
12. The candidates shall not leave the hall before the end of the Test.

— □□□ —

BREAK-UP OF MARKS

Section	Subject	Marks	Q. No.
A	English	50	1 – 50
B	Current Affairs and General Knowledge	70	51 – 80
C	Logical Reasoning	30	81 – 150
Total Marks		150	

SECTION – A: ENGLISH

I. Read the given extract and answer the following questions by choosing the most appropriate answer.

The past century has drastically changed the concept of community, no matter if you live in a rural area, a suburban neighbourhood, or an urban metropolis. Families no longer cohabit as intergenerationally as they once did, especially as the appeal of the nuclear family began to increase. The move from rural living to urban lifestyles to suburbia and then back to city-life has meant that extended families often fracture and live further and further apart. We are often caught up in the reality of constant “busyness” that we don’t take the time to get to know our neighbours. And social media has redefined “connection” and “friendship,” leaving us staring at screens more than engaging with the people around us.

The impact of this is apparent on parents and children. The adage “it takes a village to raise a child” is absolutely still true. But somewhere along the way, we’ve lost the “village” we need to raise kids in nurturing, creative and safe ways. And as a result, families are missing out on crucial learning experiences and much needed support systems. In the end, many parents feel isolated and alone in their struggles and kids don’t have the opportunity to engage with a diverse group of people and personalities.

1. The primary reason for breaking up of the traditional community set up is
 - (a) preference for expanding suburban neighbourhoods.
 - (b) attraction of the small family unit.
 - (c) changing the concept of cohabiting in the modern world.
 - (d) the lack of desire to live with the oldest family members.
2. The reason people do not know their neighbours very well is because
 - (a) they are always in transit.
 - (b) their lifestyle is self-destructive.
 - (c) they are constantly preoccupied with their own affairs.
 - (d) their self-centredness keeps them from interacting with the neighbour.
3. The writer’s attitude towards the ‘connections’ formed via social media is
 - (a) disparaging
 - (b) concurrence
 - (c) apathetic
 - (d) elusive
4. Which of the following statements is incorrect with respect to the passage?
 - (a) The community provides a safe and healthy environment for positive interaction with the children.
 - (b) Crucial learning experiences and much needed support systems at home clash with the values of the community.
 - (c) The collective effort of the community raises children in nurturing, creative and safe ways.
 - (d) Modern communities lack meaningful interactions, leaving the parents feeling isolated and alone in their struggles.
5. **Statement 1:** People are available to raise other people’s children.
Statement 2: The nature of communities has undergone tremendous transformation regardless of their location.
 Choose the most appropriate answer.
 - (a) Both statements are true and 2 is the correct explanation of 1.
 - (b) Both statements are true but 2 is not the correct explanation of 1.
 - (c) Statement 1 is true but statement 2 is false.
 - (d) Statement 1 is false but statement 2 is true.

II. Read the given extract and answer the following questions by choosing the most appropriate answer.

I used to be the person who would strive for perfection from the beginning of a creative process. With more time given at the beginning, an obvious decline of quality is seen and it has become a pattern all throughout my other works. Here’s why I had to change my system of production.

Being stuck at the beginning of a creative process (i.e., writing, designing, painting) due to overthinking will have a ripple effect on the entire output. In art school, I’ve had many classmates taking their time planning on how to produce a material and half of the time given for production was wasted. They then had more pressure to finish their work just to meet the deadline and sacrifice the quality of output altogether.

Being a working student to help support myself in school, I never had the luxury of time that my classmates had when we were in college; when we were given a project, I started immediately. I call my process “Finished, Not Perfect Method” (FNPM).

FNPM allows me to be efficient. I divide the amount of time I have by the number of parts my project has – Beginning, Middle, End, Improvements. Each part is given focus and time for potential improvements or changes. A friend or two could tell you what their opinion is and you may add the necessary changes based on their input. However, keep the maximum number of people you consult for opinion to two. Anything more than that will create more opinions that will paralyse you from progressing later on.

When your work can give what's needed and you have finished your work on time (if not earlier) then the next step is to stop and find a way to be happy about it. Contentment is important in this stage for people who always feel regret for not doing their best in a work they have laboured so hard for.

6. Although the writer described herself as being a perfectionist, the eventual quality of her work was _____. Choose the most appropriate answer.
 (a) dilapidated (b) disappointing
 (c) devastating (d) distorted
7. 'Overthinking' posed a big hurdle for the narrator as
 (a) she would be coerced into being dull.
 (b) she would sulk over her spoiled assignments.
 (c) it would not allow her to start her work.
 (d) it would make her anxious about her submission.
8. Identify the sequence of events that ultimately led to art school students submitting subpar work.
 (1) quality of work compromised to meet the deadline
 (2) a large amount of time invested on planning
 (3) mounting pressure to complete the task
 (4) wasted half of the time in production
 Choose the appropriate option:
 (a) (2), (3), (4), (1) (b) (2), (3), (1), (4)
 (c) (2), (4), (3), (1) (d) (2), (4), (1), (3)
9. 'Ripple effect' means
 (a) the continuing and spreading results of an event or action.
 (b) the cumulative effect produced when one event sets off a chain of similar or other events.
- (c) anything that can go wrong will go wrong.
 (d) moving in a circular path towards the centre of the circle.
10. 'Time' is referred to as a 'luxury' because
 (a) she had to work after classes and thus, could not spare any time.
 (b) she had a lot of time on her hands to get things done slowly.
 (c) time was a valuable commodity she paid a heavy price for.
 (d) she was mostly running out of time because of overthinking.
11. The writer had to innovate her "Finished, Not Perfect Method" (FNPM) since
 (a) she had to get better grades than her privileged classmates.
 (b) her overthinking pattern was a dismal failure.
 (c) she had very little time to spare.
 (d) chasing perfection never got her work done.
12. Segregating the various parts of the project helps
 (a) while consulting friends for their opinion.
 (b) to work on each part separately and improve it.
 (c) to reduce production time at the beginning.
 (d) reduces stress that is usually accompanied by missed deadlines.

III. Read the given extract and answer the following questions by choosing the most appropriate answer.

In recent years, medical schools and institutions have increasingly integrated VR (Virtual Reality) into their curriculum, offering near real experiences for training future healthcare professionals. While VR offers numerous advantages in medical training, it also presents significant challenges that must be addressed.

One of the primary benefits of VR in medical education is its ability to provide realistic and immersive simulations of medical procedures. Medical students can use VR to practice surgeries, diagnose illnesses and engage in patient interactions in a controlled and risk-free environment. These simulations allow students to gain valuable hands-on experience before they encounter real patients, thereby increasing their confidence and competence.

Furthermore, VR can enhance the understanding of complex anatomical structures. By immersing students in 3D models of the human body, they can explore organs, tissues and systems from various angles, improving their spatial awareness and comprehension. This interactive learning experience fosters a deeper understanding of human anatomy, a crucial foundation for medical practice.

However, the integration of VR into medical education is not without its challenges. Firstly, the cost of implementing VR technology in medical schools can be substantial. High-quality VR equipment and software require a significant financial investment, which may strain the budgets of educational institutions. Additionally, ongoing maintenance and updates are necessary to ensure the technology remains effective.

Another challenge lies in the development of accurate and comprehensive VR medical simulations. Creating realistic virtual patients and medical scenarios that mimic real-world complexities demands extensive research and development efforts. Ensuring the accuracy of simulations is crucial to the educational value of VR training.

Moreover, VR raises concerns about potential over-reliance on technology. Medical students must strike a balance between virtual training and hands-on clinical experience. While VR offers a safe and controlled environment for learning, it cannot replace the valuable lessons learned through direct patient interaction.

To sum up, VR has the potential to transform medical education but it also presents financial and developmental challenges, as well as concerns about balancing virtual and real-world experiences. Addressing these challenges will be crucial in harnessing the full potential of VR for medical education.

13. This passage most likely appeared as part of a _____.
Complete the sentence with an appropriate option.
- technology magazine feature
 - medical school's informational brochure
 - government report on education
 - debate on the future of medical training
14. The author's primary purpose in this passage is
- to advocate for the complete replacement of traditional medical training with VR.
 - to provide a balanced discussion of the advantages and challenges of using VR in medical education.
 - to persuade readers to invest in VR technology for medical schools.
 - to critique the high cost of VR equipment in medical education.
15. The passage mentions "*immersive experiences*" to emphasise _____
- the potential for escapism in VR.
 - the intensity and realism of VR training.
 - the need for virtual tours of medical facilities.
 - the limited scope of VR simulations.
16. Identify the sentence in the passage that contains a participial phrase.
- 'Virtual reality technology has been steadily advancing.'
 - 'This immersive experience can significantly enhance their learning.'
 - 'It allows them to practice complex surgical procedures.'
 - 'The medical students, wearing VR headsets, feel as if they are in an operating room.'
17. According to the passage, why is the cost of implementing VR in medical schools a challenge?
- VR technology is difficult to maintain.
 - VR equipment is currently unavailable.
 - VR requires a significant financial investment.
 - VR simulations are not realistic enough.
18. What does the passage suggest about the balance between VR training and hands-on clinical experience?
- VR training can entirely replace hands-on clinical experience.
 - VR training should be the sole focus of medical education.
 - Clinical experience is no longer relevant in medical education.
 - A balance between VR training and real-world experience is essential.
19. The author's discussion of the challenges of VR in medical education is primarily intended to
- present a well-rounded view of the topic.
 - convince readers that VR is not suitable for medical training.
 - discourage investment in VR technology.
 - highlight the need for more research and development in VR.
20. Which word from paragraphs 4–5, in the passage could be substituted with '*financially burdened*', without changing the meaning?
- integration
 - accuracy
 - mimic
 - strain
21. In the passage, the phrase 'fosters a deeper understanding', is best defined as –
- promotes a more profound insight.
 - creates a stronger resistance.
 - reduces the complexity of.
 - develops a superficial grasp of.
22. Which of the following, if true, would most weaken the conclusion that addressing the challenges is crucial for harnessing the full potential of VR in medical education?
- Medical schools are rapidly adopting VR without considering the costs.
 - Traditional medical training methods are becoming less effective.
 - VR technology is becoming more affordable and accessible.
 - VR simulations can replace all aspects of clinical experience.

IV. Read the given extract and answer the following questions by choosing the most appropriate answer.

Why do we relentlessly pursue these gleaming awards and coveted certificates? These tokens of recognition, ranging from simple course completion certificates to the grandeur of global trophies, what drives us? Do we not have an innate sense of our own value? The human pursuit of accolades and certificates, an intricate interplay of self-worth, external validation and societal pressures.

At the heart of our chase for these honours lies an unquenchable thirst for acknowledgement and validation. No matter how confident or self-assured one may be, the allure of external validation is irresistible. It is not about doubting our capabilities; it is about the affirmation that our dedication and hard work have been seen, recognised and applauded. In this light, awards and certificates stand not just as tokens but as symbols of our relentless pursuit of excellence.

Our relentless pursuit of accolades is deeply woven into the fabric of our society. From an early age, we are indoctrinated to compete, to shine in academics, sports, or our careers. Society's measure of success often hinges on these tangible milestones, which illustrate our ability not just to meet but to exceed expectations.

Moreover, these recognitions bestow an unparalleled sense of accomplishment and pride. They are emblematic of the tireless hours, the unwavering dedication and the indomitable spirit invested in chasing our dreams. This recognition is transformative, elevating an individual's self-esteem, inspiring them to reach for the stars and to redefine their self-worth. The satisfaction gleaned from these acknowledgements extends beyond the realm of external validation; it is an ode to personal growth.

However, as we embark on this relentless journey, we must tread with caution. A relentless pursuit of external validation can lead to a superficial sense of self-worth. A person's true worth cannot be distilled from the certificates adorning their walls or the trophies glittering on their shelves. Intrinsic motivation and personal fulfilment must hold equal sway.

To conclude, our burning desire for awards and certificates mirrors our unyielding quest for recognition, validation and the unquenchable sense of accomplishment they bring. These accolades undeniably hold great significance, but we must not forget that our self-worth should not be tethered solely to the whims of external validation. Our achievements are undeniably important, but they represent just one facet of our intricate, multi-dimensional identities.

23. What is the tone of the passage?
 (a) Informative (b) Reflective
 (c) Persuasive (d) Irony
24. What is the cause-and-effect relationship presented in the passage?
 (a) Cause: Pursuit of awards and certificates, Effect: Increased self-worth
 (b) Cause: Intrinsic motivation, Effect: Pursuit of awards
 (c) Cause: Unquenchable sense of accomplishment, Effect: Extrinsic validation
 (d) Cause: Irony tone, Effect: Entertainment of readers
25. What is the purpose of the word "relentless" in the passage?
 (a) To describe the journey as short-lived.
 (b) To emphasise the continuous and persistent nature of the pursuit.
 (c) To indicate a sudden change in direction.
 (d) To convey a sense of calm and tranquillity.
26. Which of the following, if true, would most weaken the conclusion that external validation is superficial in determining self-worth?
 (a) Individuals who possess numerous awards tend to have high self-esteem.
 (b) The pursuit of awards and certificates is often driven by personal goals and intrinsic motivation.
 (c) People who lack external validation through awards still maintain high levels of self-worth.
 (d) Studies show that individuals with more certificates are perceived as more competent by employers.
27. The author would probably agree with which of the following statements?
 (a) "Awards and certificates are the sole determinants of self-worth."
 (b) "Intrinsic motivation plays no role in the pursuit of external validation."
 (c) "The pursuit of awards and certificates is driven by societal pressures."
- (d) "Personal growth is solely influenced by external validation."
28. The author implies that pursuing awards and certificates would be _____ to personal growth. Choose the most appropriate answer.
 (a) detrimental (b) irrelevant
 (c) integral (d) insignificant
29. Given the author's position on the pursuit of awards and certificates, what stand would the author probably take on the issue of external recognition in academia?
 (a) The author would argue for stricter external recognition criteria in academia.
 (b) The author would likely advocate for a reduced emphasis on external recognition in academia.
 (c) The author would insist on increasing the number of awards available in academia.
 (d) The author would emphasise the importance of formal dress codes in academic institutions.
30. In the passage, which sentence correctly uses the past perfect tense?
 (a) "Our relentless pursuit of accolades is deeply woven into the fabric of our society."
 (b) "No matter how confident or self-assured one may be, the allure of external validation is irresistible."
 (c) "The human pursuit of accolades and certificates, an intricate interplay of self-worth, external validation and societal pressures."
 (d) "These recognitions had been elusive until recently, but now they have become more attainable."
31. Which of the following substitutions for 'emblematic of' in the given sentence would NOT change the meaning of the quoted sentence?
They are emblematic of the tireless hours, the unwavering dedication and the indomitable spirit invested in chasing our dreams
 (a) Similar to (b) Representative of
 (c) Proof of (d) Conducive to

32. What is the writer's aim in referring to people as "multi-dimensional identities"?

- (a) To emphasise that individuals possess numerous facets that contribute to their complexity.

(b) To suggest that people are hard to understand and often contradictory.

(c) To indicate that individuals should focus on their external accomplishments.

(d) To convey that people have only one defining trait that leads them to success.

V. Read the following passage and answer the following questions by choosing the most appropriate answer.

In recent years, electric vehicles (EVs) have emerged as a catalyst for change, not only in terms of sustainable transportation but also in empowering individuals to become micro-entrepreneurs. Particularly in Tier 2 markets, where access to traditional job opportunities may be limited, EVs have opened up new avenues for women to assert their economic Independence and contribute significantly to household income. According to our data, an inspiring 25% of women in these markets have embraced the EV platform as a means to earn their livelihoods. Electric vehicles, be it e-rickshaws, e-carts, or e-bikes, offer an affordable and eco-friendly mode of transportation that can be easily adopted by individuals. This has allowed women to enter various service sectors like last-mile delivery, transportation and local commuting, empowering them to generate income and uplift their communities.

33. The popularity of EVs can be ascribed to it being

- (1) the latest technology.
- (2) a sustainable mode of transportation.
- (3) a means of empowerment.
- (4) easily available.

Choose the most appropriate answer.

- (a) (1) and (2) (b) (1) and (4)
- (c) (2) and (3) (d) (2) and (4)

34. A significant limitation in Tier 2 cities is

- (a) the lack of enough EVs
- (b) the dearth of sufficient number of jobs
- (c) the slow pace of development
- (d) the absence of adequate number of entrepreneurs

35. The use of the word "catalyst" conveys that it is something

- (a) that initiates a sudden and important change.
- (b) that becomes the end to justify the means.
- (c) that contributes to sustainable growth.
- (d) surfaces at regular intervals of time.

36. **Statement 1:** EVs are extremely versatile and have a wider range to offer.

Statement 2: More women than men have bought EVs.

Choose the most appropriate answer.

- (a) Both statements are true and 2 is the correct explanation of 1.
- (b) Both statements are true but 2 is not the correct explanation of 1.
- (c) Statement 1 is true but statement 2 is false.

(d) Statement 1 is false but statement 2 is true.

37. "Last-mile delivery" refers to the journey of the product

- (a) reaching the customer's doorstep.
- (b) in the back of a delivery truck.
- (c) from the warehouse shelf.
- (d) at the manufacturing plant.

38. In which of the following sentences is the word 'avenue' used in the same sense as given in the passage?

- (a) As you go through the entrance, you are surrounded by an avenue of golden trees.
- (b) The authors suggest several further avenues of research in which their findings could prove useful.
- (c) In spite of the late hour, the lights at 22 Canning Avenue were still ablaze.
- (d) One of these improvements consists of a central avenue cut across the old city to the waterfront.

39. In which sectors have electric vehicles (EVs) enabled women to generate income and empower their communities in Tier 2 markets?

- (a) Healthcare and education
- (b) Agriculture and farming
- (c) Last-mile delivery, transportation and local commuting
- (d) Manufacturing and heavy industries

VI. Read the following passage and answer the following questions by choosing the most appropriate answer.

It is not surprising that students are experiencing a wide range of mental health challenges, such as paralysing stress, anxiety and depression. In 2021–22, the National Health Survey found that college students' anxiety and depression were at historic levels, with 37 per cent reporting some anxiety and 44 per cent experiencing some depression in the two weeks prior to the survey. Moreover, approximately 83 per cent reported that emotional or mental difficulties had impaired their academic performance at some time during the month prior to taking the survey. Although some observers might try to dismiss these statistics as just a result of the pandemic, national data suggest that mental health issues were on the rise before the virus arrived. It is vital that institutions pay more attention and take more responsibility for their part in causing these trends.

Research in this area suggests that cultivating caring, affirming and connected communities on college campuses is critical when it comes to mental health. Networks of professors, staff and fellow students who care can become lifelines when college stressors become all consuming. And if colleges affirm student cultures, values and identities, they can boost students' self-esteem and sense of empowerment, help them feel less isolated and promote a greater sense of belonging. Prioritising caring, connected and affirming communities helps more students thrive. A curriculum that allows students to simultaneously deepen their connections to their community's cultural values and their learning environment can help them feel like they belong to both. Research also shows that culturally relevant learning experiences improve academic success. Campuses therefore should provide mental health services that are culturally responsive, via professionals who understand diverse student backgrounds and experiences. Offering counselling services, support groups and outreach programmes designed for diverse communities can help students feel understood and supported.

40. Based on the data from the National Health Survey, what could be a potential consequence for educational institutions if they don't address the mental health challenges of their students?
 - (a) Improved student performance
 - (b) No impact on the institution
 - (c) Decreased student enrolment
 - (d) Decreased academic success and retention rates
41. In what ways might educational institutions contribute to the rising trend in student mental health challenges, as mentioned in the paragraph?
 - (a) Higher educational institutions have no role in this trend
 - (b) By appointing dedicated mentors for all students
 - (c) Through insufficient awareness and support for student's mental health
 - (d) By increasing the academic rigor
42. What broader implications can be drawn from the statistics in the paragraph for the overall well-being of society?
 - (a) An indication of the need for more stringent admission standards in educational institutions to address mental health concerns
 - (b) A potential decline in workforce productivity and innovation due to mental health issues.
 - (c) An increased emphasis on academic rigor and competitiveness in the job market.
 - (d) A call for re-evaluation of social support systems to address mental health challenges, as these issues extend beyond educational institutions.
43. According to research, what is the relationship between culturally relevant learning experiences and academic success?
 - (a) They have no correlation.
 - (b) Culturally relevant learning experiences primarily hinder academic success
 - (c) Culturally relevant learning experiences can improve academic success.
 - (d) They are only relevant for certain student populations.
44. What is the significance of a curriculum that allows students to deepen their connections to both their community's cultural values and their learning environment?
 - (a) it hinders academic success
 - (b) it has no impact on the sense of belonging
 - (c) it helps students feel like they belong to both the institution and their culture
 - (d) it emphasises academic rigidity

VII. Read the following passage and answer the following questions by choosing the most appropriate answer.

Linguistics, an intricate and ever-evolving academic discipline, has undergone a remarkable transformation in recent decades, transcending its origins as a mere study of language to become a profound exploration of the complexities of human cognition and communication. The expanding purview of linguistics is a testament to its growing significance in understanding our world and enhancing our technological prowess.

One of the most fundamental paradigm shift within linguistics has been its transition from a prescriptive to a descriptive approach. Early linguistic studies, embodied by the structuralist principles of Ferdinand de Saussure, predominantly focused on normative rules and language structures. However, the advent of modern linguistics, spearheaded by Noam Chomsky's groundbreaking generative grammar theory, has heralded a new era of linguistic inquiry—one that seeks to understand not how languages should be used but how they are used in practice. This transformation has enabled linguists to uncover the underlying universals that govern human language, revealing its intricate tapestry.

The synergy between linguistics and computer science has been instrumental in shaping our digital age. The birth of computational linguistics has given rise to transformative technologies, such as machine translation, speech recognition and sentiment analysis. These applications, weaving the intricacies of human language with cutting-edge technology, have revolutionised fields as diverse as e-commerce, healthcare and social media. The confluence of linguistics and computer science continues to chart new frontiers, shedding light on the symbiotic relationship between humans and machines.

Moreover, interdisciplinary collaborations have propelled linguistics into uncharted territories. Cognitive linguistics marries linguistic theory with insights from psychology, neuroscience and anthropology, unravelling the profound interplay between language and human cognition. Sociolinguistics and anthropological linguistics delve into the social and cultural dimensions of language, elucidating linguistic variations and their socio-cultural implications. This interdisciplinary nexus enriches our understanding of how language permeates all facets of human life.

45. What does the term 'ever-evolving' imply in the first paragraph?
- Linguistics is becoming stagnant and unchanging.
 - Linguistics is a dynamic field that continuously develops and changes.
 - Linguistics has reached its peak and will not change further.
 - Linguistics is regressing and losing its significance.
46. Which option does NOT correctly infer the meaning based on the following sentence from the first paragraph?
"The expanding purview of linguistics is a testament to its growing significance in understanding our world and enhancing our technological prowess."
- Linguistics plays a significant role in our comprehension of the world and technological advancements.
 - The scope of linguistics has grown, reflecting its increasing importance in understanding our world and advancing our technological capabilities.
 - Linguistics has a declining influence on our understanding of the world and technological advancements.
 - Expanding the field of linguistics has led to a greater focus on understanding the world and enhancing our technological capabilities.
47. Why has the writer used the word "tapestry" in the phrase "revealing its intricate tapestry"?
- To emphasise the colourful and decorative nature of linguistic studies.
 - To suggest that linguistics involves the crafting of physical artworks.
 - To indicate the presence of hidden and mysterious aspects in linguistics.
 - To imply that linguistics is like a woven fabric of interconnected elements.
48. Select the option that correctly analyses the impact of the writer's use of words like "synergy" and "confluence".
- To highlight the tension and conflicts between linguistics and computer science.
 - To illustrate the collision of linguistic theories with computer science, creating chaos in both fields.
 - To describe the harmonious collaboration between linguistics and computer science, resulting in transformative technologies.
 - To depict the isolation of linguistics from other academic disciplines and its struggle to adapt.
49. How can the relationship between humans and machines be described as 'symbiotic'? (Paragraph 3)
- Because machines fully depend on humans for their functionality.
 - As humans and machines work together, benefiting from each other's capabilities.
 - Because machines have replaced humans in various linguistic tasks.
 - As humans have become overly reliant on machines for linguistic analysis.
50. What is an example of an interdisciplinary collaboration mentioned in the passage? (Paragraph 4)
- Collaboration between linguistics and art history to study language's visual representation.
 - Collaboration between linguistics and chemistry to analyse language composition.
 - Collaboration between linguistics and psychology, neuroscience and anthropology to understand the interplay between language and human cognition.
 - Collaboration between linguistics and astronomy to explore the influence of celestial bodies on human languages.

SECTION – B: CURRENT AFFAIRS AND GENERAL KNOWLEDGE

51. The 'COP26' conference has been a significant global event. What is its primary focus?
- An annual event celebrating cinematic achievements.
 - A global summit addressing climate change and environmental sustainability.
 - A technology conference for the gaming industry.
 - A forum for discussions on international trade agreements.
52. A key thrust area for the Supreme Court of India has been towards securing diversity and inclusion in its ranks. Who was the first woman judge of the Supreme Court of India?
- Justice Ranjana Prakash Desai
 - Justice BV Nagarathna

- (c) Justice M Fathima Beevi
(d) Justice Sujata V Manohar
53. What does the Gross Domestic Product (GDP) measure?
- (a) Total government revenue collection and expenditure incurred during a financial year
(b) Total money in circulation in the economy at any given point of time
(c) Is a measure of income distribution and inequality within a country
(d) Broadly understood as the final value of the goods and services produced within the geographic boundaries of a country during a specified period of time
54. The Sustainable Development Goals (SDGs) were adopted by the United Nations in 2015 as a universal call for peace and prosperity. Which of the following statements about SDGs is NOT true?
- (a) Plan of action for people, planet and prosperity
(b) Development must balance social, economic and environmental sustainability.
(c) Creativity, know-how, technology and financial resources from all of society is necessary to achieve the goals in every context.
(d) Rank countries, according to their economic growth and GDP per capita
55. In 1960 a Stanford Professor, Walter Mischel, conducted an interesting experiment called the 'Marshmallow Experiment' to test the connection between delayed gratification and better success later in various facets of life. The outcome of the experiment can also be referred to as:
- (a) Present Bias (b) G.I.Joe Fallacy
(c) Cognitive Dissonance (d) Confirmation Bias
56. Which international agreements remain central in efforts to enable a permanent solution to the geopolitical tensions between Russia and Ukraine?
- (a) Minsk Agreements (b) Geneva Conventions
(c) Baku Accords (d) Moscow Peace Treaty
57. The world's tallest statue, an ode to Sardar Vallabhbhai Patel, situated in Kevadia, Gujarat is also referred to as
- (a) Statue of Equality
(b) Statue of Independence
(c) Statue of Unity
(d) Statue of Belief
58. In 2022, India introduced the KAVACH system, which is:
- (a) indigenously developed Automatic Train Protection (ATP) System.
(b) software network developed by DRDO and used by intelligence agencies to intercept and analyse internet traffic.
(c) constellation of remote sensing satellites to monitor weather patterns and early warning of natural disaster.
(d) indigenously developed counter drone systems most recently deployed during the G20 summit.
59. The 'Five Eyes Alliance' is a global intelligence network, pooling resources and sharing sensitive information to collectively secure peace and combat global threat. The following countries make up the alliance:
- (a) US, UK, France, Germany, Japan
(b) US, UK, Australia, Japan, India
(c) US, UK, Germany, Australia, New Zealand
(d) US, UK, Canada, Australia, New Zealand
60. The G20 Summit in India brought together leaders from the World's major economies to address pressing global issues. India used this platform to underscore its commitment to fostering global growth and stability. Which of the following areas was NOT a focus of the summit?
- (a) Managing Global Debt Vulnerabilities
(b) Eliminating Hunger and Malnutrition
(c) Bridging the Gender Digital Divide
(d) Making space exploration more equitable
61. The Indian Premier League is a professional T20 cricket league. It was established in 2008 and has since become one of the most popular cricketing leagues in the world. Which of the following players has played for the same team (franchise) since the inaugural edition?
- (a) David Warner (b) Virat Kohli
(c) Ben Stokes (d) Hardik Pandya
62. The NASA OSIRIS-REx mission (Origins, Spectral Interpretation, Resource Identification and Security – Regolith Explorer) recently brought back a capsule of rocks and dust collected from:
- (a) Asteroid Bennu (b) Mars
(c) Saturn's rings (d) Halley's comet
63. Which is the longest river in India?
- (a) Godavari (b) Ganga
(c) Narmada (d) Mahanadi
64. A key Indian foreign policy initiative is the 'Act East Policy'. Which statement correctly captures its objective?
- (a) is to promote economic cooperation, cultural ties and develop strategic relationship with countries in the Indo-Pacific region
(b) securing an active intelligence sharing network between India, Sri-Lanka and Bangladesh
(c) promotes a key partnership to combat human and drug trafficking through South East Asian nations
(d) promotes India as a hub of scientific education by attracting best minds from various South East Asian nations

65. The Jnanpith Award recognises the most outstanding contributions in the field of –
 (a) Medicine (b) Literature
 (c) Science and Engineering (d) Public Affairs
66. Which of the following global companies is NOT led by a CEO of Indian origin?
 (a) Starbucks (b) Microsoft
 (c) Chanel (d) RedBull GmbH
67. The Reserve Bank of India having regard to the needs of securing the monetary stability in the country, prescribes the CRR (Cash Reserve Ratio). Which of the following most closely explains this ratio?
 (a) percentage of bank's total deposits that is required to be maintained either in cash or as deposits with the Reserve Bank of India
 (b) minimum rate at which Reserve Bank of India lends funds to commercial bank
 (c) minimum percentage of net profit to cash flow over that banks require to maintain over a financial year
 (d) maximum percentage of deposits that can be extended as loans by a bank at any given point of time
68. Which author made history by being the first Indian (non-expatriate) to win the Booker Prize?
 (a) Arundhati Roy – God of Small Things
 (b) Kiran Desai – The inheritance of Loss
 (c) Arvind Adiga – White Tiger
 (d) Chetan Bhagat – Five Point Someone
69. Who among the following is NOT a recipient of a Nobel Prize?
 (a) Mother Teresa (b) Kailash Satyarthi
 (c) Amartya Sen (d) Mahatma Gandhi
70. Pick the INCORRECT combination.
 (a) New Horizons – Pluto
 (b) Cassini Huygens – Saturn
 (c) Juno – Jupiter
 (d) Ignis – Sun
71. Which of the following countries is NOT a member of SAARC?
 (a) Afghanistan (b) Bhutan
 (c) Cambodia (d) Bangladesh
72. Dr. APJ Abdul Kalam, known as the Missile Man of India, was instrumental in the creation of which of these offices? He was also the first person to hold this office.
 (a) Principal Scientific Advisor to the Government of India
 (b) Director of the Indian Space Research Organisation
 (c) Director of the Defence Research and Development Organisation
 (d) Secretary to the Department of Atomic Energy
73. Which of the following countries have neither signed nor ratified the Rome Statute?
 I. India
 II. United States of America
 III. Russian Federation
 IV. Azerbaijan
 Choose the most appropriate answer.
 (a) i, ii, iv. (b) Only i.
 (c) Only i and iv. (d) All of these.
74. Omar al-Bashir was the first Head of State to be indicted by the International Criminal Court. He was indicted by the Court in relation to which of the following incidents?
 (a) Alleged war crimes committed under his Presidency during the Sudanese civil war.
 (b) Alleged war crimes and crimes against humanity committed at Darfur between at least 2003 to 2008.
 (c) Alleged crimes against humanity of murder and rape committed in the Central African Republic in between 2002 to 2003.
 (d) Alleged crimes against humanity resulting from waging war against South Sudan.
75. A big roadblock towards concluding Brexit was the failure of the UK and the EU to agree on transport of goods to Ireland (a member of the EU) through Northern Ireland (one of the constituent countries of the UK). This problem was resolved with the conclusion of the Windsor framework, effectively the final step in the Brexit process. Which of the following statements about the Windsor Framework are accurate?
 i. It is a tripartite agreement between England, Northern Ireland and the United Kingdom.
 ii. The agreement proposes to establish red and green lanes for goods moving into Northern Ireland to reduce checks and paperwork related hurdles on such goods.
 iii. The agreement does not provide for separation of goods entering Northern Ireland from those entering Ireland.
 iv. The agreement is concluded between the United Kingdom and the European Union.
 Choose the most appropriate answer.
 (a) i, ii and iii. (b) ii and iv.
 (c) Only ii. (d) ii, iii, iv.
76. Which of the following statements about BRICS is NOT incorrect?
 i. South Africa is not an original member of the BRICS coalition.
 ii. The bloc was started as an attempt to strategically assist the United States of America as allies.
 iii. The BRICS member countries represent at least 40% of the world's population.
 iv. The acronym for the bloc was coined in 2001 by then Goldman Sachs chief economist Jim O'Neill in a research paper that underlined the growth potential of Brazil, Russia, India and China.

Choose the most appropriate answer.

- (a) i and ii. (b) Only ii.
(c) i, iii and iv. (d) All of these.
77. India recently hosted the G20 Conference in New Delhi as it served as the President for the coalition. Which of the following is the only country to have permanent guest invitee status at the G20?
(a) Spain (b) Ireland
(c) South Africa (d) Portugal
78. A change in exchange rate leads to a change in supply and demand of foreign goods in the domestic market and domestic goods in the foreign market. This also leads to an imbalance in the balance of payments. What is Balance of Payments?
(a) Balance of payments is the statement of a country's trade with other nations.
(b) Balance of payments is the money a country owes other nations.
(c) Balance of payments is the money owed to a country from another nation.
(d) None of these.
79. The gaming industry witnessed its largest acquisition in recent history involving the following major entities:
(a) Microsoft – Activision
(b) Sony – Nintendo
(c) Apple – Tencent
(d) Google – Electronic Arts
80. ISRO's PSLV has been the workhorse for Indian space programme, launching many critical payloads including the recent Chandrayaan mission. What does PSLV stand for?
(a) Plasma Synthesis Launch Vehicle
(b) Planetary Surface Lander Vehicle
(c) Polar Satellite Launch Vehicle
(d) Planetary Survey and Lander Vehicle

SECTION – C: LOGICAL REASONING

81. All Supreme Court judgements are binding on all High Courts. All High Court judgements have persuasive value in other High Courts. Some High Court judgements also have persuasive value in the Supreme Court.
Examine the following statements:
i. Some High Court judgments are binding on the Supreme Court.
ii. Some judgements with persuasive value are binding on High Courts.
iii. Some High Court judgements are persuasive in both the Supreme Court and the High Courts.
Choose the most appropriate answer.
(a) Only i follows. (b) Both i and ii follows.
(c) Only iii follows. (d) Both ii and iii follows.
82. All ducks are birds. Some birds fly and no reptiles are birds. A snake is a reptile. if the above are true, which of the following would also be true?
(a) Snakes do not fly. (b) No snakes are ducks.
(c) All ducks fly. (d) Some birds are snakes.
83. All cats are singers. All birds dance. Some cats are birds. Albert Einstein is a singer. Examine the following statements:
i. Albert Einstein does not dance.
ii. Albert Einstein dances.
iii. Albert Einstein is a bird.
iv. Albert Einstein is not a bird.
v. Albert Einstein is not a cat.
vi. Albert Einstein is a cat.
Which of the following conclusion(s) is necessarily correct? Choose the most appropriate answer.
(a) Only iii and vi (b) Only ii, iii and v
(c) Only iii (d) None of these
84. All watches are chronographs. Some chronographs are antiques. All antiques are expensive. D is a chronograph. Which of the statement necessarily follows?
(a) D is a watch.
(b) If 'D' is antique, it must be a watch.
(c) D must be expensive.
(d) None of these
85. All philosophers are logicians. Some logicians are critical thinkers. All critical thinkers are rationalist. Z is a rationalist. Examine the following statements:
i. Z is a logician.
ii. Z may be a logician.
iii. Z is a Philosopher.
iv. Z is a critical thinker.
Choose the most appropriate answer.
(a) Only iv (b) Only iii and iv
(c) Only ii (d) None of these
86. Some rivers are ponds. All ponds are ocean. No ocean is sea. Examine the conclusions:
i. Some ponds are sea.
ii. All rivers are ocean.
iii. Some sea may be a river.
Which of the conclusions necessarily follows?
Choose the most appropriate answer:
(a) Only i (b) Only ii
(c) Only iii (d) None of these
87. Some Ships are Boats. All Boats are Submarines. Some Submarines are Yachts. Examine the following statements:
i. Some Yachts are Boats
ii. Some Submarines are Ships
iii. Some Yachts are Ships
Choose the most appropriate answer:
(a) Only i (b) Only ii
(c) Only iii (d) None of these

88. All States are Countries. Only some Countries are States. Some States are democratic. Given that X is democratic, examine the following conclusions:

- i. X is a State.
- ii. X is a Country.
- iii. X is not a State.
- iv. X is not a Country.

Choose the most appropriate answer:

- (a) Only i follows.
- (b) i and ii follows.
- (c) iii and iv follows.
- (d) None of the four conclusions necessarily follow.

89. **Statement I:** All books are valuables.

Statement II: Some souvenirs are books.

Statement III: Some books are souvenirs.

Statement IV: No valuables are souvenirs.

Choose the most appropriate answer:

- (a) Statements I, II and III are consistent with each other.
- (b) Statements II, III and IV are consistent with each other.
- (c) Both 'a' and 'b' are correct.
- (d) None of the above.

90. All lions are animals. No animal is a zombie. All zombies are rainbows. All rainbows are zombies.

Given this information, which of the options necessarily follows?

- (a) No lions are rainbows.
 - (b) Some lions are rainbows.
 - (c) All lions are rainbows.
 - (d) None of the above.
91. 'Frankly, technology is often baffling to me, too. Luckily, I have kids who delight in parenting me – advising, explaining and guiding me, on all things digital. But studies suggest that this helpfulness might not be as beneficial as we think. Grappling with new and baffling things forces the ageing brain to work in novel ways. A recent study from the University of Texas involving more than 200 elderly adults found that those who engaged with technology had better cognition and memory than their non-engaging peers.'

Which of the following assumptions is made in the above passage?

- (a) Elderly adults are technology averse.
 - (b) All elderly adults are incapable of understanding technology without significant help.
 - (c) At present technology is designed in a manner that most elderly adults find difficult to work with.
 - (d) Elderly adults must engage with technology as it improves their health.
92. Depression among the elderly is on the rise and often goes unnoticed. Most Gerontologists now believe that it is an extremely common psychiatric disorders among the elderly – with half of all cases going undiagnosed. When elderly parents become

depressed (many of them come from a generation not accustomed to talking about their mental health), it can be difficult to know how to respond. Which of the following assumption is made in the above passage?

- (a) Gerontologists unanimously agree on the prevalence of depression in the elderly.
- (b) Depression is increasingly prevalent among the elderly.
- (c) If the elderly talk more often, it is easy to detect if they have depression.
- (d) While they may not talk about mental health, the elderly are very aware about the condition.

93. Players have long been able to buy virtual items with real money in video games, such as special weapons and features. But Nintendo raised the ire of parents and regulators in 2018 when it added so-called loot boxes—a virtual lottery for in-game items—to its kid-friendly game 'Animal Crossing: Pocket Camp.' That same year, the US Federal Trade Commission said it would investigate loot boxes, which critics liken to a slot machine or a scratch ticket that's more accessible to children. The video game industry pushed back hard, arguing that loot boxes are an integral part of the strategy and skills players use to compete.

The passage assumes which of the following:

- (a) Video games industry's sole purpose is to maximise profit via active exploitation of players through any means possible without consideration as to the age of the player.
 - (b) There are no limitations in US as to who can make an in-game purchase, since children have access to loot boxes.
 - (c) The highest utilisation of loot boxes happens in Nintendo's games.
 - (d) By choosing to investigate the matter, the US FTC has expressed its displeasure at presence of loot boxes in video games.
94. Any attempt at fighting the camp's psychopathological influence on the prisoner by psychotherapeutic or psychogenic methods has to aim at giving inner strength by pointing out to him a future goal to which he could look forward. Instinctively some of the prisoners attempted to find one on their own. It is a peculiarity of man that he can only live by looking to the future. And this is his salvation in the most difficult moments of his existence, although he sometimes has to force his mind to the task.
- Which one of the following conclusions can be properly inferred from the passage?
- i. Each individual has the ability to preserve their sanity by remaining focussed on the future.
 - ii. Looking to the future is difficult for many, as they get caught up in the present.
 - iii. Those going through a tough time must rely on their past experiences for inner strength.

Choose the most appropriate answer.

- (a) Only i (b) Only ii
(c) i and ii (d) i and iii

95. The problem with eugenics and genetic engineering is that they represent the one-sided triumph of wilfulness over giftedness, of dominance over reverence, of moulding over beholding. But why, we may wonder, should we worry about this triumph? Why not shake off our unease with enhancement as so much superstition? What would be lost if biotechnology dissolved our sense of giftedness?

Which of the following conclusions can be properly inferred from the passage?

- i. Genetically engineered kids would be ungifted.
ii. Genetic engineering might make people more focussed on controlling things and less respectful of natural abilities.
iii. Controlling and dominating abilities through genetic engineering should be seen as natural part of human progress.

Choose the most appropriate answer.

- (a) Only i (b) Only ii
(c) Only ii and iii (d) Only i and iii

96. **Statements:** Young adults spend most of their time on social media. Young adults should spend more time making connections in the real world.

Conclusions

- i. Young adults should avoid social media.
ii. Young adults cannot make real life connections because they spend most of their time on social media.

Which of the following conclusions can be properly inferred? Choose the most appropriate answer.

- (a) Only i follows
(b) Only ii follows
(c) Both i and ii follows
(d) Neither i nor ii follows

97. While television and print media are still bound by regulations that require a modicum of truthful content, social media is a battleground of facts, lies and deception, where governments, journalists, law enforcement and activists are on an uneven playing field. Lack of stringent regulation or periodic verification, enable unbridled access to social media, resulting in unchecked dissemination of information with elusive credibility.

Which of the following conclusions can be properly inferred from the passage?

- i. Anyone can post anything on the social media.
ii. It is generally difficult to ascertain the accuracy of content posted on social media.
iii. People are easily influenced by what they read on social media. Choose the most appropriate answer.

- (a) Only iii (b) Only ii
(c) Both i and ii (d) i, ii and iii

98. Fitness tracking devices often recommend we take 10,000 steps a day. But the goal of taking 10,000 steps, which many of us believe is rooted in science, in fact rests on coincidence and sticky history rather than research. Research suggests use of time, not steps and suggest we exercise for at least 150 minutes a week, or half an hour most days, in addition to any moving around we do as part of our normal daily lives.

Which of the following conclusions can be properly inferred from the passage?

- (a) Most people walk 10,000 steps but become frustrated when no apparent benefits are noticeable.
(b) It is better to measure effort through time rather than number of steps, being a more scientific measure.
(c) Most people find it difficult to complete 10,000 steps daily.
(d) None of the above

99. Human beings are entitled to dignity and rights while non-human animals are not, because human beings are autonomous while animals are heteronomous. In other words, animals are not in control of their actions and are guided entirely by pleasure and pain, while human beings are capable of acting, for moral reasons, even contrary to pleasure and consonant with pain.

Which of the following assumptions are made in the above passage?

- (a) Entitlement to dignity and rights flows from the ability to act, for moral reasons, contrary to pleasure and consonant with pain.
(b) Human beings are worthy of asserting superiority over animals.
(c) Both (a) and (b)
(d) Neither (a) nor (b)

100. The negative psychological effects of pornography, including addiction and emotional distress, are well-documented. We have a moral obligation to protect our society from these potential harms. Banning pornography is a responsible step to safeguard the mental well-being of individuals, especially our youth.

Which of the following assumptions is made in the above passage?

- (a) The negative psychological effects of pornography are significant and concerning enough to warrant a ban on pornography.
(b) There are no substantial positive or beneficial aspects to pornography consumption that might counterbalance the negative effects.
(c) Both (a) and (b)
(d) Neither (a) nor (b)

101. Excessive use of mobile phones has been associated with a range of health issues. Prolonged screen time and constant connectivity can lead to physical

- problems like eye strain, neck and back pain and disrupted sleep patterns. Additionally, excessive use of mobile phones raises concerns about the potential long-term health effects of exposure to electromagnetic radiation. Therefore, one should not use mobile phones too much.
- Which of the following assumption is made in the above passage?
- One should not use anything as the excessive use of which can cause health problems.
 - One should not use anything associated with electromagnetic radiation.
 - Both (a) and (b)
 - Neither (a) nor (b)
102. Dark comedy should be banned. Dark comedy often relies on humour that is edgy and insensitive, making light on serious or sensitive topics such as death, mental illness, or tragedy. It can normalise insensitivity and desensitise people to the gravity of these issues. Over time, individuals may become less empathetic or more willing to dismiss the real-life pain and suffering of others as mere punchlines. Which of the following assumption is made in the above passage?
- Insensitive things should be banned.
 - It is not acceptable to dismiss the real-life pain and suffering of others.
 - Both (a) and (b)
 - Neither (a) nor (b)
103. An environmental organisation claims that replacing traditional light bulbs with LED bulbs in households will significantly reduce electricity consumption.
- Which of the following, if true, would most support this claim?
- LED bulbs are more expensive than traditional light bulbs.
 - LED bulbs have a longer lifespan than traditional light bulbs.
 - LED bulbs emit less heat than traditional light bulbs.
 - LED bulbs are available in a variety of colours.
104. A research study concluded that regular exercise leads to better mental health. The study found that individuals who exercised on an average for 30 minutes every day reported lower levels of stress and anxiety.
- Which of the following, if true, would undermine the study's conclusion?
- The study included participants from a wide range of age groups.
 - Individuals who exercised for longer durations reported did not report marked decrease in stress and anxiety.
 - The study was limited in its geographic scope.
 - Participants who exercised experienced physical injuries.
105. Gun violence in schools is a significant and concerning issue and discussing ways to prevent it and ensure the safety of students and faculty is crucial. An important way of limiting it is by implementing background checks and waiting periods for gun purchases. This can prevent individuals with mental health issues from obtaining firearms. Which of the following is the most appropriate assumption required by the above passage?
- Gun violence in school is primarily committed by individuals with mental health issues.
 - Individuals with mental health issues are more likely to purchase guns to commit a crime.
 - Both (a) and (b)
 - Neither (a) nor (b)
106. The question of whether colonialism was 'good' is a complex and debated topic. Some argue that colonialism led to advancements in technology, infrastructure and education in some regions. However, it also brought about immense suffering, exploitation and the loss of sovereignty for many indigenous populations. The negative consequences, including cultural erosion, displacement and violence, often outweigh any potential benefits. In contemporary discourse, it is generally recognised that the harms of colonialism far outweigh any perceived 'good,' and its legacy continues to shape global inequalities and injustices.
- Which of the following is/are most appropriate conclusion(s) of the above passage?
- it is important to see both the 'good' and 'bad' of colonialism to understand its true impact.
 - irrespective of the 'good' that colonialism brought, it can never justify the 'bad' it perpetrated.
 - it was necessary to do 'bad' to attain the good in colonialism.
 - Discussions on effects of colonialism must end with attainment of Independence, otherwise it tends to become a continuing excuse.
- Choose the most appropriate answer.
- Only i
 - Only ii
 - Both i and ii
 - None of these
107. The Examination Department at prominent National Law School is considering setting its class schedules for the incoming batch. The subjects are Sociology, Contracts, Political Science, Constitutional Law and Administrative Law. The following considerations are kept in mind:
- All classes must be held every day.
 - Political Science must immediately follow Contracts on any day.
 - Sociology cannot be the first or the last subject on any day.

- iv. Constitutional Law and Administrative Law cannot immediately precede or follow each other.
- If Administrative Law is the third class of the day, what does the class schedule for that day look like?
- Constitutional Law, Sociology, Administrative Law, Contracts, Political Science
 - Contracts, Political Science, Administrative Law, Constitutional Law, Sociology
 - Contracts, Constitutional Law, Administrative Law, Sociology, Political Science
 - Sociology, Contracts, Administrative Law, Political Science, Constitutional Law
- 108.** Before announcing its policy of Non-Performing Assets (NPA), the Finance Ministry has decided to consult heads of six of the largest banks in the country (A,B,C,D,E,F). It is a well-known fact that not all heads get along very well with each other and prefer not to sit next to each other in any meeting. During the meeting they all will sit in a line facing the finance minister. You have been tasked to devise a seating plan keeping in mind the following conditions.
- A cannot be on the immediate left or right of B.
 - D cannot be at either end.
 - E and F would ideally like to sit next to each other.
 - C would prefer to sit one seat removed from E.
- Which of the following is a possible seating arrangement?
- D,A,F,E,B,C
 - E,F,A,B,D,C
 - A,D,E,F,C,B
 - F,E,C,A,D,B
- 109.** Cities are the engines of a nation's progress. However, many cities are poorly managed and struggle to provide a basic standard of living to many residents. At the core of the problem is the question of autonomy of cities that are almost always dependent on central or state governments for even basic needs. A new report suggests that this can be remedied through constitutional amendments to provide more autonomy, means of revenue- generation and discretion in spending to cities.
- Which of the below facts, if true, most weakens the above argument?
- Cities which are self-governing have historically not been able to provide a good standard of living to its residents.
 - Constitutional amendments may take some time to be passed.
 - it is easier for the central or state governments to administer cities.
 - None of the above.
- 110.** A town was faced with the problem of an excessive number of rats. To solve this, the town started offering a financial reward for every rat killed, which was to be proved by showing the severed tail of the rat.
- Which of the following facts, if true, would be an argument in favour of the town's policy?
- Merely cutting off the tail of a rat does not stop that rat from surviving and producing more rats.
 - Once the tail of a rat is cut off, the rat cannot survive.
 - Cutting off tails is an inhuman way to solve the problem.
 - None of the above.
- 111.** Not wearing a seatbelt in a moving vehicle is illegal and punishable. However, X argues that since not wearing a seatbelt can at most only harm the person who has chosen not to wear a seatbelt and does not harm any other person, it should not be illegal or punishable.
- Which of the following facts, if true, would weaken X's argument?
- People who don't wear a seatbelt are likely to suffer severe injuries in the event of an accident and consequently make use of public health resources such as government hospitals.
 - In the event of an accident, people who are not wearing a seatbelt may also be thrown about and cause harm to other people or property.
 - Both (a) and (b)
 - Neither (a) nor (b)
- 112.** Certain tennis tournaments have started a policy for equal pay for men and women players. Supporters of the policy argue that lack of equal pay would violate the principle of equal pay for equal work. Which of the following arguments most weakens the supporters' argument?
- Men's matches generate more revenue than women's matches.
 - Men usually play 5-set matches while women play 3-set matches, i.e., men usually play longer matches.
 - The principle of equal pay for equal work did not originate in sports.
 - None of the above.
- 113.** Certain tennis tournaments have started a policy for equal pay for men and women players. Critics of the policy argue that because men's matches generate more revenue than women's matches, this policy is ill-conceived. Which of the following most weakens the critics' argument?
- Revenue generation should result in equal pay.
 - Organisers of tennis tournaments have more than enough money and can afford to pay all players high amounts.
 - Both (a) and (b)
 - Neither (a) nor (b)
- 114. Statement:** "Nudge theory" is the theory that by shaping the environment, also known as the choice

architecture, one can influence the likelihood that one option is chosen over another by individuals, without adding any significant incentives or disincentives for any option. For example, a retail store may place its more expensive items at eye-level and cheaper items at a lower shelf. Perhaps the most frequently mentioned example of nudge theory is the setting of defaults, which are pre-set courses of action that take effect if nothing is specified by the decision-maker.

Which of the following facts, if true, best supports the above statements?

- i. If a default option is provided, decision-makers are likely to choose that option.
- ii. Consumers in a retail store are likely to choose items that are placed at eye level rather than items which are placed on a lower shelf.

Choose the most appropriate answer.

- (a) Only i. (b) Only ii.
(c) Both i and ii. (d) None of these

115. Some children's books which were published in the 1950s contain racist and sexist language that would be unacceptable today. These books should be re-published with the racist and sexist language omitted.

Which of the following most strengthens the above argument?

- (a) Children who are exposed to racist or sexist language will think that such language is acceptable.
(b) Racist or sexist language should never be permitted to be published for any reason.
(c) Both (a) and (b)
(d) Neither (a) nor (b)

116. Darshan is attempting to build a 5-day meal-plan from 6 dishes – U, V, W, X, Y and Z – in accordance with the following conditions:

- i. No dish may be repeated unless two other dishes are cooked before the repetition.
- ii. W and V must not be made on consecutive days.
- iii. U and Z must not be made on alternate days.
- iv. Y must always be followed by X.

Which of the following is a valid meal-plan if V must be included?

- (a) X, U, V, X, Y (b) X, U, Y, W, V
(c) Z, V, U, W, X (d) None of these

117. Joseph must decide which songs – A, B, C, D and E – to sing in a 5-day performance schedule, with each song being performed only on one day, in accordance with the following conditions:

- i. C and D must not be scheduled on adjacent days.
- ii. B may immediately follow E, but not vice-versa.
- iii. The first day must either be A or C.
- iv. The last day cannot be D.

If B is the mid-point of the performance schedule, which of the following is a valid 5-day schedule?

- (a) A, E, B, C, D (b) A, D, B, E, C
(c) C, A, B, D, E (d) None of the above

118. Anisha must decide how to seat her friends – V, W, X, Y, Z – at a circular wedding table in accordance with the following conditions:

- i. Z and W must sit next to each other.
- ii. Y may only sit with V if Y is also sitting with Z.
- iii. X is happy to sit with anyone.

If Y and X arrive early and take seats 1 and 3, which of the following is a valid arrangement?

- (a) Y, V, X, Z, W (b) Y, Z, X, W, V
(c) Y, W, X, Z, V (d) None of these

119. Arjun is prioritising his set of tasks for the day – V, W, X, Y and Z – in accordance with the following conditions:

- i. X must not be the last task.
- ii. If Z is the first task, then it must be followed by either V or Y.
- iii. X and W cannot be prioritised sequentially.
- iv. V must be followed by either W or Y.

If Arjun assigns Y to position 3, which of these is a possible ordering for the tasks?

- (a) Z, W, Y, X, V (b) V, X, Y, W, Z
(c) X, Z, Y, V, W (d) None of these

120. **Principle 1:** Whoever enters into another person's property with intent to intimidate, insult or annoy that person, commits "criminal trespass".

Principle 2: An act which causes harm which is so slight that no person of ordinary sense and temper would complain of such harm, is deemed not to amount to intimidation, insult or annoyance.

Facts: X enters into Y's property at midnight, uninvited and points a gun at Y. A few minutes later, he reveals that the gun is a toy gun.

Choose the most appropriate answer:

- (a) X has committed criminal trespass, because Y finds X annoying.
(b) X has not committed criminal trespass, because the gun was a toy gun and could not possibly have caused any harm to Y.
(c) X has committed criminal trespass because entering uninvited into a property at midnight and pointing a gun at a person would intimidate any person of ordinary sense and temper.
(d) None of the above.

121. **Principle:** Any person who knowingly disseminates false information with the intent to defraud shall be guilty of an offence.

Facts: Dravid shares a news article containing false information about a popular Cryptocurrency investment scheme. He claims it is a groundbreaking opportunity. Many people invest and later lose money.

Is Dravid guilty of an offence?

- (a) Yes, because he knowingly disseminated false information.
(b) No, because he did not have the intent to defraud.

- (c) Yes, if investors can prove substantial financial harm.
- (d) There is insufficient information to decide.
- 122. Principle:** Any individual who recklessly operates a motor vehicle, causing injury to another person, shall be guilty of an offense.
- Facts:** Salman, while driving, becomes momentarily distracted and accidentally hits a pedestrian, causing minor injuries. Salman argues that it was a genuine accident and not reckless behaviour. Is Salman guilty of an offense?
- (a) Yes, because he caused injury to another person.
- (b) No, because momentary distractions do not amount to recklessness.
- (c) Yes, because he acted recklessly.
- (d) There is insufficient information to decide.

Consider the following principles and respond to the Q.123 – 126.

- i. **Principle 1:** Vicarious liability is a doctrine holding one person strictly liable for the wrong of another, without regard to fault.
 - ii. **Principle 2:** An employer may be vicariously liable for the employee's action if the employee's act was an outgrowth of his employment, inherent in the working environment, typical of or broadly incidental to the employer's business, or, in a general way, foreseeable from his duties.
 - iii. **Principle 3:** No vicarious liability on employers for the intentional wrongs by employees unless the employee's actions were done, at least in part, to serve the interest of the employer.
- 123.** Which of the following will NOT result in vicarious liability?
- (a) A, working as a delivery driver for Flipkart, runs over Mr. X's foot while on a personal errand on a weekend in his own car.
- (b) A, working as a delivery driver for Flipkart, runs over Mr. X's foot on his way to stop at the local coffee shop between deliveries, needing a caffeine boost to make it through the day.
- (c) A, working as a delivery driver for Flipkart, runs over Mr. X's foot on his way home from work in his truck, which the company allows drivers to take home each work night.
- (d) All of the above.

Consider the following scenario and respond to the Q.127 – 130.

Imagine that society can be divided into Xs and Ys and X and Y refer to people with different physical characteristics or other characteristics that can easily be observed or discovered, such as race, ethnicity, immigrant status, or religious practices. Within each group, there are good and bad types. Assume that the Xs are wealthier and more politically powerful than the Ys perhaps because they are more numerous, or because they are descended from a politically powerful group. Under such conditions, it is possible that members of X will signal their cooperative propensity by discriminating against the Ys. Discrimination functions as a signal because it is costly (one gives up the opportunity to do business or socialise with Ys who are good types) and because conspiracy theories based on traditional fears of people with physical or cultural differences, or people who are recent arrivals, provide a focal point: given these beliefs, those who discriminate against outsiders will appear to be loyal to the insiders.

- 124.** Which of the following may result in vicarious liability?
- (a) A collision when the driver using the employer's vehicle for the purpose of visiting family for the holidays.
- (b) The driver causes injury when he is driving his truck between deliveries and intentionally runs over a man, he believes to be his wife's lover.
- (c) The driver causes injury when he intentionally hits a car in front of him, as the car in front of him was moving too slowly while the driver was trying to make deliveries on time.
- (d) All of the above.
- 125.** An unknown person knocks down a few hundred jars of baby food in the supermarket. Many of the jars shattered, making a big, slippery mess on the floor. Laila, the supermarket manager, closes down the aisle with bright orange cones and orders all available stock personnel to clean the mess. Arun, who is not paying attention while shopping in the supermarket, wanders past the orange cones, slips and breaks his arm. Is the supermarket vicariously liable?
- (a) Yes, as Laila is an employee of the supermarket.
- (b) Yes, as Arun sustained injuries at the supermarket.
- (c) No, as Arun was also at fault.
- (d) No, as Laila did no wrong.
- 126.** Phogat works as a bouncer at the Hot Spot, a local nightclub. One night Dash arrives outside the Hot Spot with a group of his friends. Dash is intoxicated and acting obnoxiously, hooting at the women going in and out of the club. Dash's behaviour annoys Phogat, who asked Dash twice to stop acting in this way, but Dash ignored him on both occasions. Phogat then punches Dash in the face, breaking his nose. Dash sues the Hot Spot and Phogat, claiming that the Hot Spot is vicariously liable. Is the Hot Spot vicariously liable for the actions of Phogat?
- (a) No, because Phogat committed an intentional wrong.
- (b) No, because there is no evidence the Hot Spot was negligent in supervising Phogat.
- (c) Yes, because employers are always liable for the torts of their employees.
- (d) Yes, because such action by a bouncer may at times use force to prevent patrons from misbehaving.

in equilibrium all or most Xs will avoid Ys (and those who do not will be ostracised by the Xs and may seek refuge with the Ys) and almost all Y's will avoid the Xs, falling back on each other when it is desirable to enter cooperative ventures. Finally, we assume that because of their political and economic dominance, members of X control the government, including the criminal justice system.

127. Which of the following observation is incorrect?
- If X is a numerically large group, Y comprises of small ethnic groups.
 - If X is a tiny minority of people with aristocratic lineage, Ys consist of the masses.
 - Numerical strength of X is always higher than that of Y.
 - X may or may not be a numerically larger group.
128. Which of the following observations is incorrect, if the Xs operate the criminal justice system to the disadvantage of the Ys?
- Ys must rely heavily on each other for protection against criminals.
 - Ys may form a solidary group and signal their loyalty to the group.
 - Ys may express loyalty to Ys by engaging in activities that the Xs disapprove of and even punish.
 - Y who engages in activities disapproved by Xs can never be trusted in comparison with other Ys.
129. Assume that criminal punishments will have different effects on Xs and Ys. Which of the following is incorrect?
- Ys obtain more respect from other Ys when they become subject to criminal punishments.
 - A criminal punishment will deter a Y less than it will deter a similarly situated X, who obtains no enhanced respect.
 - Criminal punishments impact Xs and Ys in the same manner so long as the very nature of the punishment is the same.
 - A 'Y' who has a criminal record will not be trusted by Xs.
130. Assume that semi-voluntary punishment is a reliable signal of a Y's loyalty to the other Ys. Which of the following is an incorrect observation?
- Y has an incentive to get himself punished by the Xs.
 - Y may commit a crime even if Y does not have a particular desire to commit a crime.
 - Y will commit a crime only if X provokes Y to commit a crime.
 - A criminal punishment that was kept hidden from the public would deter a Y from crime more effectively than a criminal punishment that broadcasts his offense.
131. Consider the following principle.
In a dispute between Anil and Sunil, Sunil can sue Anil in:
- the city where the dispute arose, OR
 - in the city of Anil's place of business
- Facts:** Anil and Sunil enter into a contract for delivery of specialised machinery. Anil was to deliver the machinery to Sunil's warehouse within a stipulated period of time. Anil's residence is in Delhi, but his place of business is Bengaluru, whereas Sunil is a resident of Mumbai. Anil fails to deliver the machinery during the agreed time. Where can Sunil sue Anil?
- in Delhi
 - in Bengaluru
 - in Mumbai
 - Both in Bengaluru and Mumbai provided the dispute arose in Mumbai
132. "All paintings jump. Some paintings are plants. All basketballs are plants."
Football is a basketball. Which of the following is true?
- Football is a plant and it jumps.
 - Football is a plant and a painting.
 - Football is a plant but neither jumps nor is a painting.
 - Football is a plant. As to whether it is painting and as to whether it jumps, there is not sufficient information.
133. "All paintings jump. Some paintings are plants. All basketballs are plants."
Mona Lisa jumps. Which of the following is true?
- Mona Lisa is a painting.
 - Mona Lisa is not a plant.
 - Mona Lisa is not a basketball.
 - As to whether Mona Lisa is a painting, a plant or a basketball, there is not sufficient information.
134. "All paintings jump. Some paintings are plants. All basketballs are plants."
Dragon is a plant that jumps. Which of the following is true?
- Dragon is a painting.
 - Dragon is not a painting.
 - Dragon is a basketball.
 - As to whether Dragon is a painting or a basketball, there is not sufficient information.
135. "All paintings jump. Some paintings are plants. All basketballs are plants."
Aloe Vera is a basketball and a painting. Which of the following is true?
- Aloe Vera is a plant and it jumps.
 - Aloe Vera is a plant but does not jump.
 - Aloe Vera is not a plant but it jumps.
 - Aloe Vera jumps. As to whether it is a plant, there is not sufficient information.

136. "It is well known that the world is not the same anymore — politically, economically or, for that matter, financially. Macroeconomic settings have turned adverse — from ultra-low to higher-for-longer interest rates — and raised the levels of debt, especially public debt, uncertainties and volatility. It follows that these conditions will bear upon future growth. The breaking up of trade supply chains and their reshaping, for example, will be costly for the world in general, according to calculations and costlier for the emerging and the developing countries."

Which of the following assumption is made in the above passage?

- (a) Economic events in one part of the world always shape other parts of the world.
- (b) When macroeconomic settings turn adverse, future growth gets impacted.
- (c) Both (a) and (b)
- (d) Neither (a) nor (b)

137. "Travelling in a bus can be an enjoyable experience if you have your own seat, the vehicle is not crowded and there is a nice breeze. But if the bus is packed with people, you can get irritable. Something similar happens to atoms: if they are contained in a vessel at a low density, they behave in a certain way, but if they are packed densely together, with little moving space, something new happens."

Which of the following assumption is made in the above passage?

- (a) Less crowd is essential to an enjoyable bus ride.
- (b) Atomic behaviour can always be understood by drawing analogies to real-world events.
- (c) Both (a) and (b)
- (d) Neither (a) nor (b)

138. "The issue of "tamperability" of EVMs has been doing the rounds ever since they were first introduced. Every time a political party loses an election, it blames the machine. However, none of them has been able to prove their allegations against the credibility of EVMs and neither do they apologise when they win the elections where the same EVMs have been used. All that this manages to do, however, is shake the trust of people in the system. Many critics, giving the example of Germany, say that EVMs have been declared illegal by the German Supreme Court."

Which of the following assumption is made in the above passage?

- (a) EVMs are tamper proof.
- (b) Criticism of any system shakes people's trust in it.
- (c) Both (a) and (b)
- (d) Neither (a) nor (b)

139. "The art of war is of vital importance to the State. It is a matter of life and death, a road either to safety or to ruin. Hence it is a subject of inquiry on which no account can be neglected."

Which of the following assumption is made in the above passage?

- (a) Matters of life and death should not be neglected.
- (b) Matters of life and death are of vital importance to the State.
- (c) Both (a) and (b)
- (d) Neither (a) nor (b)

140. In a survey of IT professionals in Bangalore, those who regularly practiced yoga reported fewer instances of work-related stress than those who did not. Priyanka, an IT professional from Bangalore, rarely feels work-related stress. Which of the following can be inferred?

- (a) Priyanka practices yoga daily.
- (b) Priyanka never practices yoga.
- (c) Priyanka might be practising yoga.
- (d) None of the above.

141. In English tort law, the principle of 'strict liability' is applied to hold a person legally responsible for the consequences flowing from an activity, even in the absence of fault or criminal intent on the person's part. In 1987, the Supreme Court of India introduced a new principle- 'absolute liability', a far more stringent rule of liability without any exceptions, particularly to deal with industrial accidents. This principle imposed a liability on individuals who engaged in an inherently dangerous or hazardous activity for any harm done to any person while carrying out the activity. Which one of the following assumptions is necessary to ensure the above argument logically follows?

- (a) English legal principles are not compatible with the Indian court system.
- (b) Post-Independence, the Supreme Court opted to create new names for colonial-era legal principles.
- (c) The principle of strict liability was inadequate to protect citizens' rights due to the entry of foreign companies in Indian markets.
- (d) The principle of strict liability was inadequate to protect citizens' rights in the light of the rapid industrialisation in the 20th century.

142. A study conducted on a group of students found a strong correlation between the number of hours spent studying and their exam scores. However, one student who studied significantly less than the others achieved a top score. Which of the following, if true, would weaken the general applicability of the study's findings?

- (a) The top-scoring student had a photographic memory.

- (b) The study included a wide range of students from various backgrounds.
- (c) The top-scoring student had prior knowledge of the exam questions.
- (d) The study was conducted in a controlled environment.
143. Company A announced record-breaking profits this year, attributing its success to a new marketing strategy. However, Company B, a competitor in the same market segment, also reported significant profits without changing its marketing approach. What conclusion can most likely be drawn about the effectiveness of respective marketing strategies?
- (a) Company A's previous marketing strategy was flawed in its conception.
- (b) Company B's marketing strategy was significantly more effective than Company A's revised strategy.
- (c) Company A's profits were solely influenced by its marketing strategy.
- (d) Company B's profits were solely due to its marketing strategy.
144. The recent surge in demand for electric vehicles has led to increased lithium-ion battery production. Which of the following can be inferred?
- (a) The increase in lithium-ion battery production is solely driven by the demand for electric vehicles.
- (b) Lithium-ion batteries are the only type of batteries used in electric vehicles.
- (c) Increased production of lithium-ion batteries will lead to a decrease in their cost.
- (d) None of the above.
145. The education system needs comprehensive reform to address the diverse learning needs of students.
- Which of the following can be inferred?
- (a) Comprehensive reform will guarantee equal educational outcomes for all students.
- (b) The current education system is not equipped to cater to diverse learning needs.
- (c) Comprehensive reform is easy to implement and will not face resistance.
- (d) Diverse learning needs can be met without changing the education system.
146. The education system must prioritise critical thinking skills to prepare students for the challenges of the modern world. Which of the following can be inferred?
- (a) Critical thinking skills are currently not emphasised in the education system.
- (b) Prioritising critical thinking skills is the only way to prepare students for the modern world.
- (c) Critical thinking skills are not relevant to the challenges of the modern world.
- (d) Students do not need other skills besides critical thinking to succeed.
147. If in a certain code LIGHT is NFLAE, then TABLE would be
- (a) VXGEP (b) WUHIG
- (c) WIJKL (d) VYTAB
148. If in a certain code TAIK is YUPC, then LISTEN would be
- (a) QCZLND (b) PNZCRC
- (c) QNYBND (d) PMYCQC
149. TALE : XGTO :: LONG : ?
- (a) OTUX (b) PUVQ
- (c) QVWC (d) RWXT
150. BELL : DATV :: MATE : ?
- (a) OWBO (b) PXCQ
- (c) QYDS (d) SAB
